## DAP Net Rubriken

DAPNET-Pocsag – Amateurfunk-Funkrufempfänger

Dies ist eine Liste aller Rubiken im DAPNET. Ein Rubik kann einer oder mehreren Sender-Gruppen zugewiesen werden. Bitte darauf achten, dass die Sender-Gruppen unterschiedlich sind, falls eine Rubiken-Nummer mehrfach verwendet wird. Dies vermeidet überlappende Zuordnungen.

Um dem Empfang der Rubriken auf dem Skyper freizuschalten bitte die Funktion "Rubriken aktivieren" verwenden.
